That the following is the summary of the report as required by Section 6, Paragraph (q) of the "District Investigation Act of 1933", an Act passed by the Legislature of the State of California entitled: "An Act to provide for a preliminary investigation report and hearing upon the organization of the special tax and assessment districts and providing certain restrictions and limitations upon the organization of same and providing for the termination of proceedings for the organization thereof by protests of the owners of a majority of the property subject to assessment for district purposes". Approved June 10, 1933, California Statutes, 1933, Chapter 806, Page 2141:

SUMMARY

The foregoing report has been prepared in accordance with the provisions of Section 6, of Chapter 806 of the 1933 Statutes of the State of California.

The maps showing the boundaries of the proposed district, the general nature, location and extent of the proposed project, and the lands to be assessed or taxed to pay any part of the cost thereof are attached hereto and are made a part of this report.

The proponents of this project propose to provide the necessary fire fighting equipment and to construct a building for the housing thereof. They also propose to provide for the salary of an operator during the summer months and also for a sufficient amount to defray the maintenance and operation costs of the equipment and all incidental expenses.

The needs of the present and estimated future population in regard to the proposed project and the itemized estimate of the probable cost thereof are as follows, to-wit:

Fire fighting Equipment	$ 3,000.00
Construction of Garage	200.00
Salary and Wages for operator	400.00
Insurance on Plant and Equipment	50.00
Supplies and Repairs	25.00
Reserve Fund for Incidentals	325.00
Total	$ 4,000.00

The proposed project will serve a very definite economic need as it will afford a method of reducing the general fire hazard. The area embraced in the proposed boundaries is largely planted to grain and other vegetation which becomes dry in the summer months. This, of course, is readily inflammable and the proposed project will reduce the possibility of destruction to these crops by fire. The destruction of such crops by fire endangers the dwelling houses and other farm buildings adjacent thereto. The proposed project should greatly curtail such loss by fire and will thereby reduce fire insurance rates on both crops and improvements.

The eight sheets to which this summary is attached show the essential data as to the needs of present and estimated future population in regard to the proposed project, the economic factors involved, the preliminary plans showing the nature, types and arrangement

of all facilities to be constructed, together with general specifications and estimates of costs based upon such plans, and all of the facts and things required to be stated in Section 6 of the hereinabove mentioned statute, including the assessed valuation of each parcel of land to be seperately assessed or taxed, the total assessed value of the improvements on such lands, the total true value of such lands, all unpaid special assessments or taxes.

And you are hereby further notified that the land in the proposed district in which you are interested may be assessed or taxed for the proposed project.

BY ORDER OF THE BOARD OF SUPERVISORS of the County of Yolo, State of California, passed and adopted in regular session the 5th day of April , 1937.

Clerk of said Board.

That in addition to the aforesaid notice by publication the Clerk of said body shall give notice, by first-class mail, postage prepaid, to each person to whom land in the proposed district is assessed in the last equalized County assessment roll, at the address shown thereon, or as known to the said Clerk, and to any person who has filed his name and address and a designation of the lands in which he has an interest, either legal or equitable, with said Clerk; such notices must be mailed at least twenty (20) days prior to the said hearing; that said mailed notices shall be in the same form and substance as the notice hereinabove directed to be published.

4. That, at the time and place hereinabove stated for the hearing of said report, the Board of Supervisors of the County of Yolo, State of California, hear and pass upon said report; that at the said hearing protests may be made orally or in writing by any person who owns or has an interest in property which might be liable to assessment or taxation for the proposed project or for the payment of expenses or obligations of the district, should the district be aoganized. Any protests pertaining to the regularity or sufficiency of the proceedings must be in writing and must clearly set forth the irregularity or defect to which objection is made. All written protests must be filed with the Clerk of said Board of Supervisors at or before the time fixed for the hearing. The hearing may be continued from time to time, not exceeding sixty (60) days.

5. That at or before the hearing of any person who owns or has an interest in land in the proposed district may present to the Board of Supervisors of Yolo County a request, in writing, for exclusion of such land or any part thereof, and any person owning or having an interest in land outside the proposed district may present to the supervising authority a request, in writing, for the inclusion of such land in the proposed district.

6. That the hearing of said report be held in accordance with law and that this Board take action thereon pursuant to law.

Should the Board find that the emergency and the necessity for the appointment of such emergency deputy or deputies is in existence at the time of such meeting and will continue thereafter the Board shall ratify and approve the appointment of such emergency deputy or deputies and such deputy or deputies shall thereafter hold office until the Sheriff cancels their appointment or until the Board of Supervisors finds that the emergency and necessity for which such deputy or deputies were appointed no longer exists. Approved June 10, 1933, California Statutes, 1933, Chapter 806, Page 2141:

SUMMARY

The foregoing report has been prepared in accordance with the provisions of Section 6, of Chapter 806 of the 1933 Statutes of the State of California.

The maps showing the boundaries of the proposed district, the general nature, location and extent of the proposed project, and the lands to be assessed or taxed to pay any part of the cost thereof are attached hereto and are made a part of this report.

The proponents of this project propose to provide the necessary fire fighting equipment. They also propose to provide for salary of a part-time operator during the summer months and also for a sufficient amount to defray the maintenance and operation costs of the equipment and all incidental expenses.

The needs of the present and estimated future population in regard to the proposed project and the itemized estimate of the probable cost thereof are as follows, to-wit:

Fire fighting equipment	$ 100.00
Salary and Wages for part-time Operator	100.00
Insurance on Plant and Equipment	50.00
Supplies and Repairs	25.00
Reserve Fund for Indidentals	125.00
Total	$ 400.00

The proposed project will serve a very definite economic need as it will afford a method of reducing the general fire hazard. The area embraced in the proposed boundaries is largely planted to grain and other vegetation which becomes dry in the summer months. This, of course, is readily inflammable and the proposed project will reduce the possibility of destruction to these crops by fire. The destruction of such crops by fire endangers the dwelling houses and other farm buildings adjacent thereto. The proposed project should greatly curtail such loss by fire and will thereby reduce fire insurance rates on both crops and improvements.

The sheets to which this Summary is attached show the essential data as to the needs of present and estimated future population in regard to the proposed project, the economic factors involved, the preliminary plans showing the nature, types and arrangement of all facilities to be constructed, together with ### general specifications and estimates of costs based upon such plans, and all of the facts and things required to be stated in Section 6 of the hereinabove mentioned statute, including the assessed valuation of each parcel of land to be seperately assessed or taxed, the total assessed value of the inprove-

ments on such lands, the total true value of such lands.

AND YOU ARE HEREBY FURTHER NOTIFIED that the land in the proposed district in which you are interested may be assessed or taxed for the proposed project.

BY ORDER OF THE BOARD OF SUPERVISORS, County of Yolo, State of California, passed and adopted in regular session the 19th day of January, 1938.

Clerk of said Board.

That in addition to the aforesaid notice by publication the Clerk of this Board shall give notice, by first-class mail, postage prepaid, to each person to whom land in the proposed district is assessed in the last equalized county assessment roll at the address shown thereon or as known to the said Clerk, and any person who has filed his name and address and a designation of the lands in which he has an interest, either legal or equitable, with said Clerk; such notices must be mailed at least twenty (20) days prior to the said hearing; that said mailed notices shall be in the same form and substance as the notice hereinabove described to be published.

4. That, at the time and place hereinabove stated for the hearing of said report, the Board of Supervisors of the County of Yolo, State of California, shall hear and pass upon said report; that at the said hearing protests may be made orally or in writing by any person who owns or has an interest in property which might be liable to assessment or taxation for the proposed project or for the payment of expenses or obligations of the district, should the district be organized. Any protests pertaining to the regularity or sufficiency of the proceedings must be in writing and must clearly set forth the irregularity or defect to which objection is made. All written protests must be filed with the Clerk of said Board of Supervisors at or before the time fixed for the hearing. The hearing may be continued from time to time not exceeding sixty (60) days.

5. That at or before the hearing any person who owns or has an interest in land in the proposed district may present to the Board of Supervisors of Yolo County a request, in writing, for exclusion of such land, or any part thereof, and any person owning or having an interest in land outside the proposed district may present to the supervising authority a request, in writing, for the inclusion of such land in the proposed district.

6. That the hearing of said report be held in accordance with law and this Board take action thereon in pursuance to law.

Ordinance No. 158.

Supervisor Naismith moved the adoption of the following Ordinance.

#158 Repealed by page 445 of County Code Book

ORDINANCE NO. 158

AN ORDINANCE INSTRUCTING THE COUNTY PLANNING COMMISSION TO PREPARE A ZONING PLANFOR YOLO COUNTY, AND PROVIDING TEMPORARY ZONING RULES AND REGULATIONS FOR THE UNINCORPORATED TERRITORY OF YOLO COUNTY AND PRESCRIBING PENALTIES FOR THE VIOLATIONS OF THE PROVISIONS HEREOF,

The Board of Supervisors of the County of Yolo, State of California, do ordain as follows:

Section 1. The Board of Supervisors of the County of Yolo, State of California, hereby instructs the County Planning Commission to prepare a zoning or land use districting plan for the control of land uses in said County and to prepare and make reports thereon in the manner as prescribed by law, embodying therein the basic structure of a land use plan, and applying certain regulations to certain portions of the unincorporated territory of said County, said Board of Supervisors hereby declares it to be its intention to proceed with the consideration of tentative and final reports when same shall be made by said County Planning Commission, in the manner prescribed by law, for the purpose of applying the detailed regulations of said Districting or Zone Ordinance to portions of the unincorporated territory of said County. Said Board of Supervisors hereby finds that, owing to the territorial extent of said County, the diversity of interests therein and the necessity for the making of careful studies and thorough analyses of facts in the preparation of the Districting Ordinance of said County, considerable time will necessarily elapse before the adoption of said zoning or districting ordinance covering various portions of the unincorporated territory of said County, and that certain regulations of an interim nature are necessary to be adopted at this time in order to assure the orderly and harmonious development of said County, to protect the character and stability of residential areas and sound land uses in general and otherwise to protect the public interest, health, comfort and convenience and to preserve the public peace, safety and welfare pending the preparation and adoption of the proposed Districting Ordinance.

Section 2. The provisions of this ordinance shall apply to all that portion of the unincorporated territory of the County of Yolo that is not now zoned or districted.

Section 3: No use of any land, building or other structure, which use is other than one-family residential in character or accessory and incidental thereto (the usual barns and out-houses on farms being deemed as accessory) shall hereafter be established or established and conducted, and no building or other structure which is designed and/or intended to be used for any purpose other than one-family residential in character or accessory and incidental thereto shall hereafter be erected, constructed, moved or converted, within the County of Yolo, unless and until, in any such case, a permit for such establishing or establishing and conducting or for such erection, construction, moving or conversion shall first have been secured from the Board of Supervisors of said County. Application for any such permit shall be made to the County Planning Commission, which shall consider the same and

shall report its recommendations with respect thereto to the Board of Supervisors. Said Board of Supervisors shall consider such application and report at its next succeeding meeting following receipt of such report from the Planning Commission. Said Board of Supervisors may issue such permit if, in the opinion of said Board, the proposed building, structure or use will not be detrimental to the character or development of the neighborhood thereof and will not otherwise effect the welfare of said territory and/or of said County; or said Board of Supervisors may refuse to issue such permit subject to specified conditions designed to accomplish the purpose of this Ordinance. In all instances where permits are issued by the Board of Supervisors, permits for like uses shall be issued in a like manner.

Section 4. All departments, officials and public employees of the County of Yolo which are vested with the duty or authority to issue permits or licenses shall conform to the provisions of this ordinance and shall issue no such permits or licenses for uses, buildings, or purposes if the same would be in conflict with the provisions of this ordinance, and any such permit or license, if issued in conflict with the provisions of this ordinance, shall be null and void.

Any person, firm or corporation, whether as principal, agent, employee or otherwise, violating or causing the violation of any of the provisions of this ordinance shall be guilty of a misdemeanor and upon conviction thereof shall be punishable by a fine of not more than Three Hundred Dollars ($300) or by imprisonment in the County Jail of said County for a term not exceeding three (3) months or by both such fine and imprisonment. Such person, firm or corporation shall be deemed to be guilty of a seperate offense for each and every day during any portion of which any violation of this ordinance is committed, continued or permitted by such person, form or corporation, and shall be punishable as herein provided.

Any building or structure set up, erected, constructed, altered, enlarged, converted, moved or maintained when the use of the building is commenced after the passage of this ordinance contrary to the provisions of this ordinance and/or any use of any land, building or premises established, conducted, operated or maintained when the use is commenced after the passage of this ordinance contrary to the provisions of this ordinance shall be and the same is hereby declared to be unlawful and a public nuisance and the District Attorney of said County shall, upon order of the Board of Supervisors, commence action or proceedings for the abatement and removal and enjoinment thereof in the manner provided by law.

Section 5. This ordinance is hereby declared to be of temporary nature only to serve until such time as the County Board of Supervisors, after receiving report from the Yolo County Planning Commission, takes final action upon a districting ordinance relating to the area within the unincorporated territory of Yolo County.

Section 6. This ordinance is hereby declared to be an urgency measure, necessary for the immediate preservation of public health and safety and shall take effect and shall be in full force and effect immediately upon its adoption. The facts constituting said urgency are as follows: Said Board of Supervisors have heretofore instructed the County Planning Commission of said County to prepare a zoning or districting land use plan for said County and to make tentative reports thereon in the manner as prescribed by law, and said Board of Supervisors intending to proceed with the consideration of further tentative and final reports by the said County Planning Commission and owing to the territorial extent of said County, the diversity of interest therein and the necessity for the making of careful studies and thorough analyses of facts in the preparation of the districting ordinance, considerable time will neccessarily elapse, and that meanwhile buildings, and/or structures may be erected and/or lands in the unincorporated area of Yolo County, may be used, all without the knowledge of the said Board and in a manner detrimental to the general welfare of the County, all of which would cause irreparable damage to the peace, health and safety of the County and its inhabitants, and would prevent the orderly continuance of said studies of said districting ordinance.

Passed and Adopted by the Board of Supervisors of the County of Yolo, State of

All written protests must be filed with the Clerk of the said Board of Supervisors organizing the proposed district at or before the time fixed for the hearing. The hearing may be continued from time to time, not exceeding sixty (60) days.

That the following is the Summary of the report as required by Section 6, paragraph (q) of the "District Investigation Act of 1933", an Act passed by the Legislature of the State of California entitled: "An Act to provide for a preliminary investigation report and hearing upon the organization of the special tax and assessment districts and providing certain restrictions and limitations upon the organization of same and providing for the termination of proceedings for the organization thereof by protests of the owners of a majority of the property subject to assessment for district purposes." Approved June 10, 1933, California Statutes, 1933, Chapter 806, Page 2141:

SUMMARY

"The foregoing report has been prepared in accordance with the provisions of Section 6, of Chapter 806 of the 1933 Statutes of the State of California.

The maps showing the boundaries of the proposed district, the general nature, location and extent of the proposed project, and the lands to be assessed or taxed to pay any part of the cost thereof are attached hereto and are made a part of this report.

The proponents of this project propose to provide the necessary fire fighting equipment. They also propose to provide for the salary of an operator during the summer months and also for a sufficient amount to defray the maintenance, operation and storage costs of the equipment and all incidental expenses.

The needs of the present and estimated future population in regard to the proposed project and the itemized estimate of the probable cost thereof are as follows, to-wit:

Operator	$ 400.00
Insurance on plant and equipment	90.00
Tires	180.00
Garage	600.00
Gas and Oil	80.00

Upkeep $150.00

Total $1500.00

The proposed project will serve a very definite economic need as it will afford a method of reducing the general fire hazard. The area embraced in the proposed boundaries is largely planted to grain and other vegetation which becomes dry in the summer months. This, of course, is readily inflammable and the proposed project will reduce the possibility of destruction to these crops by fire. The destruction of such crops by fire endangers the dwelling houses and other farm buildings adjacent thereto. The proposed project should greatly curtail such loss by fire and will thereby reduce fire insurance rates on both crops and improvements.

The sheets to which this Summary is attached show the essential data as to the needs of present and estimated future population in regard to the proposed project, the economic factors involved, the preliminary plans showing the nature, types and arrangement of all Facilities to be constructed, together with general specifications and estimates of costs based upon such plans, and all of the facts and things required to be stated in Section 6 of the hereinabove mentioned statute, including the assessed valuation of each parcel of land to seperately assessed or taxed, the total assessed value of the improvements on such lands, the total true value of such lands."

And you are hereby further notified that the land in the proposed district in which you are interested may be assessed or taxed for the proposed project.

BY ORDER OF THE BOARD OF SUPERVISORS of the County of Yolo, State of California, passed and adopted in regular session the 4th day of April, 1938.

Clerk of said Board.

That in addition to the aforesaid notice by publication the Clerk of said Board shall give notice, by first-class mail, postage prepaid, to each person to whom land in the proposed district is assessed in the last equalized County Assessment Roll, at the address shown thereon, or as known to the said Clerk, and to any person who has filed his name and address and a designation of the lands in which he has an interest, either legal or equitable, with said Clerk; such notice must be mailed at least twenty (20) days prior to the said hearing; that said mailed notices shall be in the same form and substance as the notice hereinabove directed to be published.

4. That, at the time and place hereinabove stated for the hearing of said report, the Board of Supervisors of the County of Yolo, State of California, hear and pass upon said report; that at the said hearing protests may be made orally or in writing by any person who owns or has an interest in property which might be liable to assessment or taxation for the proposed project or for the payment of expenses or obligations of the district, should the district be organized. Any protests pertaining to the regularity or sufficiency of the proceedings must be in writing and must clearly set forth the irregularity or defect to which objection is made. All written protests must be filed with the Clerk of said Board of Supervisors at or before the time fixed for the hearing. The hearing may be continued from time to time, not exceeding sixty (60) days.

5. That at or before the hearing any person who owns or has an interest in land in the proposed district may present to the Board of Supervisors of Yolo County a request, in writing, for exclusion of such land, or any part thereof, and any person owning or having an interest in land outside the proposed district may present to the supervising authority a request, in writing, for the inclusion of such land in the proposed district.

6. That the hearing of said report be held in accordance with law and that this Board take action thereon pursuant to law.

SUMMARY

The foregoing report has been prepared in accordance with the provisions of Section 6, of Chapter 806 of the 1933 Statutes of the State of California.

The maps showing the boundaries of the proposed district, the general nature, location and extent of the proposed project, and the lands to be assessed or taxed to pay any part of the cost thereof are attached hereto and are made a part of this report.

The proponents of this project propose to provide the necessary fire fighting equipment. They also propose to provide for the salary of an operator, a garage to house the equipment, and also a sufficient amount to defray the maintenance and operation costs and the cost of the insurance.

The needs of the present and estimated future population in regard to the proposed project and the itemized estimate of the probable cost thereof are as follows, to-wit:

Fire fighting equipment	$2,100.00
Salary for Operator	240.00
Insurance on Plant and Equipment	50.00
Garage	50.00
Supplies and repairs	60.00
Total	$2,500.00

The proposed project will serve a very definite economic need as it will afford a method of reducing the general fire hazard. The area embraced in the proposed boundaries is largely planted to grain and other vegetation which becomes dry in the summer months. This, of course, is readily inflamable and the proposed project will reduce the possibility of destruction to these crops by fire. The destruction of such crops by fire endangers the dwelling houses and other buildings adjacent thereto. The proposed project should greatly curtail such loss by fire and will thereby reduce fire insurance rates on both crops and improvements.

The sheets to which this summary is attached show the essential data as to the needs of present and estimated future population in regard to the proposed project, the economic factors involved, the preliminary plans showing the nature, types and arrangement of all facil-

ities to be constructed, together with general specifications and estimates of costs based upon such plans, and all the and all the facts and things required to be stated in Section 6 of the hereinabove mentioned statute, including the assessed valuation of each parcel of land to be seperately assessed or taxed, the total assessed value of the improvements on such lands, the total true value of such lands.

And you are hereby further notified that the lands in the proposed district in which you are interestedmay be assessed or taxed for the proposed project.

Resolution, Reclamation District 999.

Supervisor Merkley moved the adoption of the following resolution.

IN THE MATTER OF APPLICATION OF RECLAMATION DISTRICT NO. 999 FOR FINANCIAL ASSISTANCE OUT OF MONEYS APPROPRIATED TO THE EMERGENCY FUND BY CHAPTER 11, STATUTES OF 1938, EXTRA SESSION

RESOLUTION

WHEREAS, Reclamation District NO. 999 is a reclamation district created, organized and existing under and by virtue of the laws of the State of California, situated in the Counties of Yolo and Solano, State of California, the greater portion of said District lying in the said County of Yolo; and

WHEREAS, the said District heretofore conveyed to the State of California a perpetual easement over, upon and across the westerly levee of said District, which levee is fifteen (15) miles long and which also serves as the easterly levee of the Yolo By-pass for the same distance; and

WHEREAS, the State of California heretofore constructed and now maintains, as a part of its secondary highway system, approximately eighteen (18) miles of highway in said District, including two (2) miles on the crest of the westerly levee aforesaid; and

WHEREAS, by reason of the foregoing facts, the State of California is directly and vitally interested in the emergency levee work hereinafter referred to; and

WHEREAS, as a result of extensive wave action in the Yolo By-pass during March,1938, caused by strong winds and high water, approximately 65,000 cubic yards of material were washed away from that portion of the westerly levee aforesaid lying in Yolo County, leaving the levee in such condition as to seriously endanger the District in the event of a recurrence of such wave action under similar circumstances; and

WHEREAS, it appears that the said District has no funds available to defray the cost of restoring its westerly levee to a normal condition, and it further appears that the District landowners are unable to lend financial assistance to this emergency levee work #### program, because they are hard pressed for funds to meet their own direct obligations, due to increased farimg expenses and reduced crop returns occasioned by severe flood and seepage conditions that prevailed during the winter and spring of 1937-1938, and which are further adversely affected by existing depressed agricultural conditions; and

WHEREAS, on April 5, 1938, the said District applied to the Honorable Frank F. Merriam, the Governor of the State of California, for an allotment of Twenty Thousand

Dollars ($20,000.00) to defray the cost of restoring the westerly levee aforesaid to its normal condition, out of moneys appropriated to the Emergency fund by Chapter 11, Statutes of 1938, Extra Session:

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Yolo County hereby endorse the application of said Reclamation District No. 999 for financial assistance, out of moneys appropriated to the Emergency Fund by Chapter 11, Statutes of 1938, Extra Session, and respectfully petition the Honorable Frank F. Merriam, the Governor of the State of California to approve such application in such amount as will assure the restoration of the westerly levee aforesaid to its normal condition for the protection of life and property in said Reclamation District, and thereby conserving the interests of the State of California in said District.

AND, BE IT FURTHER RESOLVED that a copy of this resolution be transmitted to the Honorable Frank F. Merriam, the Governor of the State of California, and to the Honorable Arlin E. Stockburger, Director of Finance of the State of California.

Resolution, Application of
Reclamation District NO, 900,
for Financial Assistance.

Supervisor Merkley moved the adoption of the following resolution.

IN THE MATTER OF APPLICATION OF RECLAMATION DISTRICT NO. 900 FOR FINANCIAL ASSISTANCE OUT OF MONEYS APPROPRIATED TO THE EMERGENCY FUND BY CHAPTER 11, STATUTES OF 1938, EXTRA SESSION.
RESOLUTION

WHEREAS, Reclamation District NO. 900 is a reclamation district created, organized and existing under and by virtue of the laws of the State of California, situated in the County of Yolo, State of California; and

WHEREAS, one of the important improvements for the protection of said District and for the protection and convenience of the general public, as well as of the landowners and residents of said District, consists of the west levee thereof, which is also the east levee of the Yolo By-pass and therefore a part of the Sacramento Flood Control Project and of public benefit; and

WHEREAS, strong winds and high water in the Yolo By-pass in March and April, 1938 created wave action that washed away material from said levee and left it such condition as to seriously endanger the District in the event of a recurrence of such winds and high water under similar circumstances; and

WHEREAS, on March 31, 1938, the said District applied to the Honorable Frank F. Merriam, the Governor of the State of California, for an allotment of $28,100,00 to defray the cost of restoring the levee aforesaid to its normal condition, out of moneys appropriated to the Emergency Fund by Chapter 11, Statutes of 1938, Extra Session; and

WHEREAS, the said District has a greater population depending upon the protection of its levees than the average Reclamation District because of its proximity to the City of Sacramento and a number of townlot and small acreage tracts in the northerly portion of the said District; and

WHEREAS, a number of miles of improved County Roads and Secondary State Highway lie within the District and Transcontinental Highway NO. 40 extends across the said district for a distance of over four miles and a failure of the said levee would cause great incon-

venience to the general public by the closing of these roads and highways as well as considerable expense to Yolo County and the State of California for repairs to the same; and

WHEREAS, the said District is heavily burdened with debt, having both and warrants outstanding in considerable amounts and has no funds with which to do the necessary work for the strengthening of the said levee;

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Yolo County, believing that the strengthing of the said Yolo By-pass levee is of paramount importance and should not be delayed, hereby endorse the application of said Reclamation District No. 900 for financial assistance, out of moneys appropriated to the Emergency Fund by Chapter 11, Statutes of 1938, Extra Session, and respectfully petition the Honorable Frank F. Merriam, the Governor of the State of California to approve such application in such amount as will assure the restoration of the levee aforesaid to its normal condition for the protection of life and property in said Reclamation District.

Petition to State Reclmation Board

Supervisor Edson moved that the following petition be signed by the Chairman and attested by the Clerk, and that the Clerk mail a duplicate to the State Reclamation Board, Sacramento, California:

Woodland, California,
November 7, 1938.

To the Reclamation Board and/or the Debris
Commission of the State of California.

Gentlemen:

Your petitioner, the Board of Supervisors of the County of Yolo, State of California, would respectfuly represent that gold dredging along and near the Feather River from Oroville to and beyond Hamilton Bend has been the cause of disastrous Floods over broad areas from Hamilton Bend to and beyond the Sacramento River above and below Colusa.

Diversion of water from the Feather at Hamilton Bend, added to the water properly coming down from the Sacramento River water shed, beaks the Sacramento River levees, interferring with the proper navigation of the latter, in addition to the wide spread agricultural losses from Hamilton Bend to Knights Landing.

Hundreds of thousands of acres are involved - the most fertile land in the State. The loss has been so large that we believe it to be a matter of State concern.

Gold Dredging has been, and is being one, in and near the Feather River at the will of gold hunters without proper Government supervision. The damage to the area flooded is progressively getting more severe, as this unrestricted dredging continues to damage the carrying capacity of the Feather. It will continue to get worse until some governmental authority with power to act gets upon the ground to direct. Local appeals to dredger miners are useless.

The suggested plan for an 800 foot channel below Hamilton Bend should be rigidly enforces. Otherwise, the navigability of the Sacramento River will be lessened and the appalling recurring and increasing agricultural losses will continue.

Wherefore, we now request that you jointly, or either of you, take such steps that may be necessary to bring about the legal control of dredging for gold on the Feather River.

Approved June 10, 1933, California Statutes, 1933, Chapter 806, Page 2141:

SUMMARY

"The foregoing report has been prepared in accordance with the provisions of Section 6, of Chapter 806 of the 1933 Statutes of the State of California.

The maps showing the boundaries of the proposed district, the general nature, location and extent of the proposed project, and the lands to be assessed or taxed to pay any part of the cost thereof are attached hereto and are made a part of this report.

The proponents of this project propose to provide the necessary fire fighting equipment, They also propose to provide for the salary of an operator during the summer months and also for a sufficient amount to defray the maintenance, and operation and storage costs of the equipment and all incidental expenses.

The needs of the present and estimated future population in regard to the proposed project and the itemized estimate of the probable cost thereof are as follows, to-wit:

Operator	$ 400.00
Insurance on plant and equipment	90.00
Tires	180.00
Garage	600.00
Gas and Oil	80.00
Upkeep	150.00
Total	$ 1500.00

The proposed project will serve a very definite economic need as it will afford a method of reducing the general fire hazard. The area embraced in the proposed boundaries is largely planted to grain and other vegetation which becomes dry in the summer months. This, of course, is readily inflammable and the proposed project will reduce the possibility of destruction to these crops by fire. The destruction of such crops by fire endangers the dwelling houses and other farm buildings adjacent thereto.The proposed project should greatly curtail such loss by fire and will thereby reduce fire insurance rates on both crops and improvements.

The sheets to which this summary is attached show the essential data as to the needs of present and estimated future population in regard to the proposed project, the economic factors involved, the preliminary plans showing the nature, types and arrangement of all facilities to be constructed, together with general specifications and estimates of costs based upon such plans, and all of the facts and things required to be stated in Section 6 of the hereinabove mentioned statute, including the assessed valuation of each parcel of land to be seperately assessed or taxed, the total assessed value of the improvements on such lands, the total true value of such lands."

And you are hereby further notified that the land in the proposed district in which you are interested may be assessed or taxed for the proposed project.

BY ORDER OF THE BOARD OF SUPERVISORS of the County of Yolo, State of California, passed and adopted in regular session the 19th day of January, 1939.

Clerk of said Board.

said hearing; that said mailed notices shall be in the same form and substance as the notice hereinabove directed to be published.

4. That, at the time and place hereinabove stated for the hearing of said report, the Board of Supervisors of the County of Yolo, State of California, hear and pass upon said report; that at the said hearing protests may be made orally or in writing by any person who owns or has an interest in property which might be liable to assessment or taxation for the proposed project or for the payment of expenses or obligations of the district, should the district be organized. Any protests pertaining to the regularity or sufficiency of the proceedings must be in writing and must clearly set forth the irregularity or defect to which objection is made. All written protests must be filed with the Clerk of said Board of Supervisors at or before the time fixed for the hearing. The hearing may be continued from time to time, not exceeding sixty (60) days.

5. That at or before the hearing of any person who owns or has an interest in land in the proposed district may present to the Board of Supervisors of Yolo County a request, in writing, for exclusion of such land, or any part thereof, and any person owning or having an interest in land outside the proposed district may present to the supervising authority a request, in writing, for the inclusion of such land in the proposed district.

The proposed project will serve a very definite economic need as it will afford a method of reducing the general fire hazard.

The area embraced in the proposed boundaries is mostly composed of residents and commercial plants. The residential area is rapidly growing and a large amount of money is invested in the commercial plants so that the need for adequate fire fighting equipment is becoming very acute. The proposed project should greatly curtail losses by fire and will thereby reduce fire insurance rates on both the residents and the commercial plants.

The sheets to which this summary is attached show the essential data as to the needs of present and estimated future population in regard to the proposed project, the economic factors involved, the preliminary plans showing the nature, types and arrengement of all facilities to be constructed, together with general specifications and estimates of costs based upon such plans, and all of the facts and things required to be stated in Section 6, of the hereinabove mentioned statute, including the assessed valuation of each parcel of

land to be seperately assessed or taxed, the total assessed value of the improvements on such lands, the total true value of such lands.

And you are hereby further notified that the lands in the proposed district in which you are interested may be assessed or taxed for the proposed project.
